## OBJECTIVE

Aspiring Data Science Student (TYDS Semester 5, at Reena Mehta College, Bhayandar (W), Mumbai University) seeking a college internship to leverage skills in data analysis, computer vision, and machine learning. Adept at developing practical solutions through projects and eager to contribute to innovative, real-world applications.

---

## EDUCATION

REENA MEHTA COLLEGE, BHAYANDAR (W), INDIA

BACHELOR OF SCIENCE IN DATA SCIENCE – SEMESTER 5 (TYDS)

EXPECTED GRADUATION: MAY 2026

CURRENT CGPA: 7.23

RELEVANT COURSES: COMPUTER VISION, DATA ENGINEERING, ROBOTIC PROCESS AUTOMATION (RPA), MACHINE LEARNING

---

## PROJECTS

- Aadhaar Masking Tool – Privacy Protection Application
  - Developed a privacy-focused web application that detects and masks Aadhaar numbers in images and PDFs using computer vision techniques
  - Implemented multi-language OCR using TesseractOCR and PaddleOCR to handle poor-quality and screenshot images with high accuracy
  - Built Django-based backend with interactive frontend to process files in real-time.
  - Applied OpenCV for image preprocessing and masking, enhancing detection accuracy and user experience
- 

## BASIC'S TECHNICAL SKILLS

- Programming: Python, SQL
  - Frameworks / Libraries: Django, OpenCV, PaddleOCR, Pandas, NumPy, Matplotlib
  - Other Skills: Data Analysis, Web Development
  - Soft Skills: Analytical Thinking, Attention to Detail, Team Collaboration, Effective Communication
- 

## CERTIFICATIONS

- Power BI Workshop – Office Master (2025)
- 

## REFERENCES
