Summary

Data Analyst with **1 year** of experience using **SQL**, **Power BI**, **Excel**, and **Python** to perform **data analysis**, **quality assurance**, **reporting**, and **process improvement**. Experienced in identifying trends, validating data, developing dashboards, and delivering actionable insights that support operational excellence and business decisions.

Skills

Core Stack: SQL, Power BI, Advanced Excel, Python, Power Query

Quality & Reporting: Quality Assurance, MIS Reporting, KPI Dashboards, Performance Metrics, Quality Reviews

Analytics: Data Analysis, Root Cause Analysis, Process Improvement, Business Analysis, Data Visualization

Data Preparation: Data Cleaning, Data Validation, ETL, Data Modeling

Additional Tools: Tableau, Automation, AI Fundamentals, OCR, OpenCV, Django

Work Experience

Data Analyst

Feb 2026 – Present

MAK { Byte }

Mumbai, Maharashtra (Hybrid)

- Conducted **data analysis**, **quality reviews**, and validation using **SQL**, **Excel**, and **Power BI**, improving reporting accuracy by **25%**.
- Developed interactive **Power BI** dashboards and **performance metrics**, improving operational KPI visibility by **30%** for business stakeholders.
- Performed **root cause analysis** on reporting discrepancies, reducing data inconsistencies by **20%** while supporting continuous **process improvement** initiatives.
- Automated recurring **MIS reporting** workflows using **Power Query**, **Excel**, and **Power BI**, reducing manual effort by **22%**.
- Created operational reports and dashboard insights supporting quality monitoring, business reporting, and data-driven decision-making across multiple departments.
- Collaborated with cross-functional teams to investigate quality issues, document findings, and improve reporting processes, increasing workflow efficiency by **15%**.

Data Analyst Intern MAK { Byte }

Aug 2025 – Jan 2026

- Cleaned, validated, and standardized operational datasets, reducing reporting inconsistencies by **20%** while supporting quality assurance activities.
- Assisted in dashboard development, reporting, and business process documentation, enabling accurate KPI monitoring and operational reporting.

Projects

Customer Service Operations MIS Dashboard

SQL, Power BI, Excel | 2025

[GitHub](#)

- Analyzed 2,000+ customer service records using SQL to identify recurring SLA delays and operational bottlenecks affecting resolution time.
- Built an interactive Power BI dashboard with KPI cards and dynamic filters, enabling weekly monitoring of service performance by the operations team.

Domestic Airline KPI Dashboard

Power BI, DAX, Data Modeling | 2025

[GitHub](#)

- Designed a star-schema data model and transformed 9,651 flight records using Power Query to prepare data for reporting.
- Built Power BI dashboards using DAX measures to analyze airline performance, pricing trends, and route efficiency across 12 airlines.

Hospital Emergency Room Dashboard

Excel, Power Query | 2025

[GitHub](#)

- Built an Excel dashboard using Power Query to monitor patient wait times, referral trends, and peak emergency workloads, helping visualize operational bottlenecks across the emergency department.

Aadhaar Masking Tool

Python, Django, OpenCV, PaddleOCR | 2025

[GitHub](#)

- Developed a Django-based OCR application using Python, PaddleOCR, OpenCV, and regex validation to automatically detect and mask Aadhaar numbers in images and PDF documents.

Certifications

- IBM – Python for Data Science Mar 2026
- Introduction to Data Analytics on Google Cloud – Google Nov 2025
- Power BI Workshop – Office Master Sep 2025

Achievements

- Led a team of three to build an AI HealthTech solution at Build & Grow AI Hackathon 2.0.
- Recognized as an Open Source Contributor for community-driven software initiatives during OSCG 2026.

Education

University of Mumbai – Bachelor of Science in Data Science

Jul 2023 – Apr 2026
