SUMMARY

Data Science student with hands-on experience in Python, Machine Learning, and Data Analytics. Passionate about building data-driven solutions through practical projects involving statistical analysis, predictive modeling, and data visualization. Strong foundation in SQL, Power BI, and Google Cloud technologies. Currently serving as a Google Student Ambassador while actively expanding skills in advanced analytics and networking with industry professionals.

EDUCATION

University of Mumbai

B.Sc in Data Science

Relevant Coursework: Data Science, Analytics, Machine Learning

July 2023 – April 2026

Mumbai, Maharashtra, India

TECHNICAL SKILLS

Programming Languages: Python, SQL

Data Analytics & Visualization: Microsoft Power BI, Google Cloud Analytics

Machine Learning: Statistical Modeling, Predictive Analytics

Tools & Technologies: Google Cloud Platform, Data Visualization Tools

Core Competencies: Data Analysis, Statistical Analysis, Problem-Solving, Project Development

PROJECTS

Machine Learning Predictive Model

Python, Scikit-learn, Pandas

- Developed end-to-end machine learning pipeline for predictive analytics using Python and scikit-learn
- Performed data preprocessing, feature engineering, and model optimization to improve prediction accuracy
- Implemented statistical analysis and visualization techniques to extract actionable insights from data

Data Analytics Dashboard

Power BI, SQL, Data Visualization

- Created interactive Power BI dashboards to visualize complex datasets and support data-driven decision making
- Designed SQL queries to extract, transform, and load data from multiple sources for comprehensive analysis
- Applied statistical methods to identify trends, patterns, and anomalies in large-scale datasets

Google Cloud Data Analytics Project

Google Cloud Platform, Python

- Leveraged Google Cloud Platform tools to build scalable data analytics solutions for real-world problems
- Implemented cloud-based data processing workflows to handle large volumes of structured and unstructured data
- Collaborated on data science initiatives focusing on practical applications of analytics and machine learning

CERTIFICATIONS & LEARNING

- Power BI Workshop – Completed comprehensive training in business intelligence and data visualization
- Introduction to Data Analytics on Google Cloud – Google Cloud Platform certification
- Actively preparing for advanced certifications in Data Science and Machine Learning

ACHIEVEMENTS

- Selected as Google Student Ambassador, representing Google's mission and organizing technical events
- Building portfolio of hands-on data science projects demonstrating practical application of analytics and ML
- Actively networking with industry professionals to stay updated on emerging trends in data science
